Summary

I'm married had 5 children (patience is virtue here).

I have an innate need to be constantly learning new things. I would say I'm a perpetual student, with a drive for self improvement.

I fit into any team straight away and am good at defusing tense situations I may come across.

My goal is to work as a full-stack web dev. With a great bunch of people and create some really cool things along the way.

Career History

Web Developer Student at Coder Academy

Aug 2019 - Present (1 month)

Attend boot-camp full-time. Learning modern tech stacks. Using a hands on approach and applying that knowledge in the real world.

Interpersonal Skills, Fitting into and working extremely well in a team environment.

Strong ability and desire for constant learning and then using what I have learned.

Industrial Electrician at Carter Holt Harvey

Mar 2013 - Apr 2019 (6 years and 1 month)

Electrician worked 12 hours shifts 4 on 4 off. In tight knit team environment. Fixing plant and machinery when there was a breakdown. Ensure high production up times through predictive maintenance.
